Here it is. The small car with big standards. Loaded with Suzuki small car know-how, and with space for more, the Celerio is larger than life and ready to go. Climb aboard for the experience.
Room to relax

When it comes to interior space and comfort, Celerio is literally head and shoulders above the rest. The high seating position and expanded visibility increase the sense of control and with ample room for legs and big ideas, you can stretch out and relax in a stress-free riding environment. Thanks to intelligent design, the easy-to-read meters are sleek and stylish, making driving an exercise in easy living.

LARGE CLEAR INSTRUMENTATION
The clear instrument cluster includes a tachometer, and also a liquid crystal display that gives essential information such as clock, gear selected (CVT), instantaneous and average fuel consumption and remaining driving range.

AIR CONDITIONING WITH POLLEN FILTER
Comfort is assured with a simple to use pollen-filtered air conditioning unit to help keep the cabin at a temperature that’s most comfortable for you.

AUDIO SYSTEM WITH BLUETOOTH® AND USB INPUT
Celerio's integrated four speaker CD audio system easily connects to an iPod or other music device via a USB port and facilitates handsfree Bluetooth smartphone connectivity.
The Celerio offers more than enough luggage space to fit your lifestyle. The 60:40 split folding rear seats offer a variety of configurations for those large and odd-shaped items. Luggage hooks stop your shopping bags rolling around in the back and a luggage cover keeps valuables hidden.

**254 L LUGGAGE CAPACITY (VDA METHOD)**

The Celerio offers more than enough luggage space to fit your lifestyle. The 60:40 split folding rear seats offer a variety of configurations for those large and odd-shaped items. Luggage hooks stop your shopping bags rolling around in the back and a luggage cover keeps valuables hidden.

**DRINK HOLDERS & STORAGE**

Multiple areas available in the front and back easily accommodate drinks, valuables and maps.
Power for the people

Celerio delivers endless possibilities and a whole lot of fun by harnessing the punchy character of an advanced lightweight three-cylinder engine design that is as unforgettable as it is fuel-efficient. Taking on the challenges of the city, you’ll find that Celerio will produce moments to remember, with agile, sure-footed handling and a tiny turning circle for a great smile-enducing experience.

ADVANCED FRONT AND REAR SUSPENSION

The Swift-derived suspension has been designed with ride comfort and handling in mind. Beyond achieving great performance, Celerio also incorporates weight-saving and space-saving innovations.

BRAKES

Enhancements to pedal ratio and booster properties optimise pedal force, deceleration and stroke for smooth braking while innovative weight-reduction measures contribute to fuel saving.

5-SPEED MANUAL OR CVT AUTOMATIC

Choose either the smooth-shifting 5-speed manual or continuously variable transmission (CVT) which incorporates an auxiliary gearbox that enhances acceleration and minimizes fuel consumption.
TURNING RADIUS
Celerio’s compact turning radius makes navigating even tight city streets effortless.

COMPACT DIMENSIONS
Small on the outside, yet large on the inside. Celerio’s easy-to-handle compact dimensions also provide plenty of interior space.

Manual 4.7L /100 km
CVT 4.8L /100 km
HIGH-RIGIDITY, LOW-WEIGHT BODY
Making effective use of high-tensile materials, Suzuki Total Effective Control Technology (TECT) realises a high-rigidity, low-weight body that improves collision safety.

SIX AIRBAGS FOR ADDED SAFETY
Front and curtain airbags mitigate the impact to driver and the front passenger in the event of a collision. The front side airbags lessen the impact to the chest and lumbar area.
Rest assured, drive on

In the driver’s seat or just along for the ride, you’re in good hands with Celerio. A suite of active and passive safety features quietly work to make sure you enjoy the drive and all it offers. Advanced accident-avoidance systems and clever use of lightweight but high tensile materials safely protect you and your passengers.

**ESP® (ELECTRONIC STABILITY PROGRAMME)**
If the wheels lose traction, an Electronic Stability Programme automatically adjusts the engine and brakes to help keep the driver in control.

**BRAKE ASSIST**
Brake Assist adjusts braking force when the brake pedal hasn’t been fully depressed in an emergency braking situation. Based on the speed at which the brake pedal is depressed, the onboard computer determines whether it is an emergency braking situation and adds brake force to achieve optimum deceleration.

When you buy a Suzuki, you’re not just buying a car, you’re joining the Suzuki family – the Suzuki Way of Life. We make some of the world’s favourite compact vehicles and take great pride in the level of service and support we offer our customers. Our New Zealand dealer network is second to none and we’ve won more independent customer satisfaction awards than any other manufacturer.

**BIG ON SMALL CARS AND SUVS**

Suzuki is one of the biggest car makers on the planet today, and we got here making small cars. We didn’t just jump on the efficiency bandwagon, we’ve been leading the way for over 100 years – it’s in our DNA. No other manufacturer can match our experience.

Today, as the world becomes increasingly motorised, the mantra of ‘smaller, fewer, lighter, cleaner’ takes on even more importance. With Suzuki’s small car expertise we’re leading the way with a range of small cars and SUVS designed for modern lifestyles. Featuring next-generation technology, our highly fuel-efficient compact vehicles are purpose-built for minimum environmental impact and maximum enjoyment. In New Zealand Suzuki’s new vehicle fleet is the cleanest of any mainstream brand. (2015 result for top 10 vehicle manufacturers.)
